

## HOPE FOR CHINA IN NEW TREATY

British-Japanese Alliance  
Will Check Progress  
of Russia.

## DEFIANCE TO CZAR

United States Back of the Al-  
lies in Interests in the  
Far East.

## SURPRISE TO POWERS

Berlin, Feb. 13.—It is semi-officially announced that Germany and the United States were informed of the Anglo-Japanese alliance and were invited to join. It is further stated that the East Asia alliance between Germany, Russia and France has ceased and will not be resumed.

Prince Henry's visit to America is assuming greater importance. A high official is authority for the statement that it is hoped the prince's visit will lead America to continue to maintain a friendly, neutral attitude toward Germany, which is now more to be desired on account of the Anglo-Japanese alliance.

Pekin, Feb. 13.—The alliance between England and Japan in regard to the far east was announced here today. The agreement is regarded as of more importance to China than anything that has occurred since the signing of the protocol for the settlement of the Boxer troubles.

Prince China's refusal to sign the Manchurian convention with Russia and his attitude in the last ten days is attributed to some forewarning he had received of the alliance which will enable China to assert her rights. Heretofore China and her friends had despaired of any such solution of the question.

Japan is Jubilant  
Yokohama, Feb. 13.—The premier, Viscount Katsura, announced in the Diet today the signature of the Anglo-Japanese treaty, which is here regarded as being practically an offensive and defensive alliance. The foreign minister, Kameura, made an identical announcement in the lower house. The news of the signing of the treaty has been received with enthusiasm throughout Japan.

Causes Sensation in France  
Paris, Feb. 13.—The alliance between England and Japan in regard to the far east has caused a great sensation in France. The Patrie says today that the general opinion is that the alliance is a defiance of Russia. It says that France has once more been fooled, and the effects will be profound and great. Germany is satisfied in regard to Wel-Hai-Wel, and England and Japan are face to face with Russia and France. It is an ultimatum.

London, Feb. 13.—The circumstances under which the Anglo-Japanese treaty is proclaimed give it the significance of an ultimatum in the estimation of most diplomats. What fresh aggression is it designed to check, they ask.

It does not require much secret knowledge to supply the answer. The treaty furnishes at least the whole some news that Great Britain and Japan are determined not to permit Russia to encroach further territorially in China.

Russia, So Far, is Silent  
Russia's plans of course, have not been disclosed. How far they will be affected by the treaty the future can only develop. The first impression in Europe seems to be that the czar's movements have been checked, but this may prove a premature conclusion.

It must be remembered that nothing short of a great crisis would lead Great Britain to abandon her policy of generations and make an alliance with another power. It may be inferred also that the occasion to act under the new treaty will arise, if at all, within the next few weeks. The far east, therefore, may be the center of the world's interest this spring.

## MADISON GIRL SEES THE POPE

Miss Hawley, of State Historical So-  
ciety Force Granted an Audi-  
ence at Vatican.

Madison, Wis., Feb. 13.—Letters from Miss Emily Hawley, of the historical library force, who is spending the winter in southern Europe, say she is now in Florence after a long sojourn in Rome. While in Rome Miss Hawley enjoyed the somewhat unique privilege of being among those who have been granted an audience with Pope Leo. Miss Hawley left Madison in November, sailing for Mediterranean ports in company with Mrs. James Gibson and daughter, Miss Edith Gibson. Leaving Florence, she will go north through France, sailing for the United States about May 1. Miss Hawley's opportunity to see the pope did not come till the Sunday preceding her departure from Rome.

A. H. Barnes, of Racine, manager of the polo department of the Horlick Athletic association, was in the city last evening to consult with F. A. Taylor regarding polo dates for next season.

Miss Dell R. Tolles of Evansville is the guest of Miss Fannie Dooley.

## CHEESEMAKERS TO MEET AT MONROE

The Southern Wisconsin Association  
Will Hold Convention Feb.  
20 and 21.

Monroe, Wis., Feb. 13.—The Southern Wisconsin Cheesemakers' association will hold a convention in Monroe on Feb. 20 and 21. An exhibit of fancy cheese will be made and prizes awarded for the best exhibits of Swiss, brick, Limburger and cheddar cheese, gold medals being presented. Following the addresses to be made the first day of the convention, following the opening address by President John Luchinsinger:

"Benefits of United Action for the Cheese Industry," Thomas Luchinsinger; "The Cheese Exchange," J. Karlen; "Our Progress and Improvement," Carl Zuercher; "Experiences of a Veteran," Jacob Regez; "Our Cheese Trade, Its Lights and Shadows," Carl Marty; "The Dealer and the Manufacturer," A. C. Trachsel; "A Model Cheese Factory," Jacob Marty; "The Treatment of Cheese in Storage," John Voegeli; "Our Losses and Their Causes," C. Donly; "The Farmer and the Cheesemaker and Their Respective Rights," John Luchinsinger.

## DAIRYMEN CHEER DOWNFALL OF OLEO

Resolution of Thanks Sent From Me-  
nominie to the Workers For the  
House Bill.

Menomonee, Wis., Feb. 13.—One thousand people attended the convention of the Wisconsin Dairymen's association here yesterday. In the afternoon the convention was stamped by the news from Washington announcing the victory of the anti-oleomargarine bill in the house. Great enthusiasm prevailed. Several resolutions of thanks were passed. Among those thanked were Congressman Henry of the Dairy commission; Chas. W. Knight, secretary of the National Dairy Union; H. C. Adams, state dairy and food commission, and ex-Governor W. D. Hoard.

By a standing vote the secretary was instructed to send the following message to Congressman J. H. Davidson: "Wisconsin dairymen in convention assembled receive most gratefully the good news in your telegram of this date. Accept for yourself and convey our thanks to the other Wisconsin members and the Chairman Henry and members of the committee on agriculture who have so valiantly fought his battle against fraud and deception."

The convention then unanimously passed a resolution and memorial asking the upper house to pass the bill, also requesting every dairymen present to write to his United States senator and ask him to vote for the bill.

W. D. Hoard closed the day's session with an address on the importance of brains in farming. Mr. Hoard said: "The average farmer does not know enough to keep cows. He was given an ovation at the close."

## HARNESS HORSES GO AT GOOD PRICES

Dexter Park Sale in Chic go Was a  
Success.—S. G. Wallace of Be-  
loit Got Sunbeam.

Chicago, Ill., Feb. 13.—Nearly 3,000 people attended the second day of the great sale of the harness horses at the Dexter park amphitheater. Union stock yards, today, including buyers from Europe and all parts of the United States. The bargain of the day was probably the highest priced one—Sunbeam, 2:12 1-4, who went to Steve G. Wallace of Beloit, Wis., for \$1,200.

G. M. Alexander of the firm of Longley, Lowe & Alexander of Chicago bought the stallion Paclarlee, 2:15 1-4, for \$750, and will cut his tail and make a high stepper of him. A black, high-spirited gelding finally went to Arthur Meeker for \$600.

The highly-bred stallion Junemont Cassel goes to Indian Territory. M. M. Pemberton being the purchaser at \$500. Felsie Muscovite out of an Alerton mare, brought \$675 and went to Charles Bond of Gatesburg, Ill. The fast pacer Alabama Coon, 2:09 1-4, brought \$1,000 and went to N. White of Chicago who will use him on the road. The trotter Jean, 2:11 1-4, also brought an even \$1,000 and E. J. Street of Kansas City, Mo., was the bidder. The seventy-five head sold brought an average close to \$400.

## CRITICAL POINT IS NOW PASSED

Young Roosevelt Slept Well All Night  
and is Doing Nicely—He  
Will Recover.

Groton, Feb. 13.—The final crisis in the illness of young Roosevelt has been met and passed. Barring the unexpected, he will live. The disease has been checked in the right lung and the left was almost completely cleared during the night. The boy slept well all night and Secretary Cortelyou announced at eight thirty this morning that the patient was doing nicely. The president and his wife are in high spirits this morning as they feel that the critical stage of the disease has been passed.

The doctors are able to say this morning that their patient is on the almost certain road to recovery. The president took a short walk around the school grounds this morning.

## NEW HEADLIGHT ON ST. PAUL ROAD

Declared to be Most Pow-  
erful Ever Carried On  
An Engine.

## ACTUAL TEST MADE

The Light in the Sky Mark-  
ing Was Visible Eight  
Miles Away.

## DEVICE IS A SUCCESS

Chicago, Feb. 13.—A disk of light thrown against the sky located the St. Paul express last evening to a party of road officials stationed at Morton Grove, although the train was yet eight miles away, behind intervening hills. To all appearances the tracks were clear the signal in the sky being the only evidence of the approaching flyer.

The road officials had gone to Morton Grove on a special train early in the evening to judge the merits of the Edwards railroad electric headlight. At the conclusion of the test the new light was declared to be the most powerful that had ever been carried on the head of a locomotive.

Express Passes at High Speed  
When the train carrying the new light arrived on the straight stretch of track which begins several miles beyond the Grove a semi-circle of light sprang out of the prairie's darkness, and, broadening gradually, as the train approached, increased in power as it approached the town. Eight minutes after the beacon was sighted the express dashed past the officials gathered on the station platform at a rate of nearly sixty miles an hour.

It is declared that the new headlight will not only minimize the danger of collisions but reduce the danger of plunging into open draws. At the same time it is held by the inventors that ability of engineers to see along the track for nearly a mile will avert many accidents.

See Track a Mile Ahead  
The St. Paul railroad has been experimenting with the new light for the last six weeks. Engine 319, carrying the new headlight, took the special train of officials to Morton Grove. A caboose and private car made up the train. On the trip observations were made from the tower of the caboose. From their station in the tower the officials could see the rails and count the telegraph poles for a distance of more than a mile ahead of the engine.

Then their attention was directed to the vertical beam which sends its reflection to the clouds and is one of the distinctive features of the headlight. It is claimed its reflection in the sky can be seen by engineers on other trains at a distance of from five to ten miles, according to atmospheric conditions. It is claimed also that colored lights can be readily distinguished in the new light.

## Identifying First Rivers Mentioned.

The first rivers mentioned in authentic history are alluded to in Genesis. They are the Pison, the Gihon, the Hiddekel and the Euphrates, which are said to have flowed from the garden of Eden. Various attempts have been made to identify these streams, but no agreement has been reached among the authorities save in the case of the last.

## MRS. A. P. LOVEJOY IS VICE PRESIDENT

Annual Meeting of the Wisconsin Con-  
sumers League is in Session  
at Oshkosh.

Oshkosh, Wis., Feb. 13.—The annual meeting of the Wisconsin Consumers' League was held at the Tremont hotel yesterday afternoon.

The delegates were welcomed to the city by Mrs. B. C. Gudden, president of the local league. Mrs. W. K. Galloway of Eau Claire, president of the state organization, responded. Mrs. Galloway asserted that the league was growing throughout Wisconsin and that the men be pressed into the ranks as well as the women, declaring that the ideal league is one that consists of both men and women. She urged the general and extensive purchase of ready-made garments as one way of aiding the working classes.

The following officers were elected: President—Mrs. W. K. Galloway, Eau Claire.

Vice President—Mrs. A. P. Lovejoy, Janesville.

Recording Secretary—Mrs. George Chamberlain, Milwaukee.

Secretary—Mrs. B. C. Gudden, Oshkosh.

Treasurer—Frank Benzenbrenner. The district vice president will be named by the executive committee. A method was adopted providing for the notification of the state authorities of numerous weak spots in the labor laws, urging the necessity of passing laws that shall be beneficial and uniform.

## SIX KILLED IN A SALOON RAID

Mountaineers and Sheriffs  
Posse Have Battle in  
Kentucky.

## LOG HOUSE TAKEN

Fight Was Desperate but Out-  
laws Were Driven From  
Their Refuge.

## APPLIED THE TORCH

Middlesboro, Ky., Feb. 13.—Six are dead and as many more dying as the result of a battle between officers from Middlesboro and mountaineers. The battle, which was a desperate one, was fought between 4 and 6 o'clock yesterday afternoon at Lee Turner's "Quarter House" saloon, three and a half miles from Middlesboro.

Last month Turner had some mules and other goods levied on for a debt, and a few nights ago he with others went to Virginia, where the property was taken, secured what was formerly his, and returned to the "Quarter House."

Deputy Sheriff Will Thompson summoned a posse of ten or fifteen men for the purpose of arresting Turner at his saloon. The Louisville & Nashville refused to convey the officers to the saloon, and they footed it through the mountains. Turner had heard that an attempt would be made to arrest him, and he and his men, fifteen in number, gave the officers a warm reception. The saloon is well suited for an attack like this. It is built of huge logs and is surrounded by a thirty-foot fence, in which loopholes are cut so that the inmates can shoot at outsiders.

Turner's surrender was demanded. His reply was a volley. Charley Cecil of Middlesboro, who was riding a pony in plain view of the Turner gang, was shot dead. Instantly the murderer fell back, pierced by a half dozen bullets.

Then the firing began in earnest. The officers, scattering and hiding behind trees and rocks, poured a galling fire into the mountain fortress. In the fight John Doyle, a former railroad man, was badly wounded, perhaps fatally, and Simon Bean, another ex-railroader, shot in the hand. The town men gathered closer around Turner's place while shots whizzed around them. As soon as Cecil was killed his companions determined to burn Turner's rendezvous and in the midst of the battle a man applied a torch to an exposed side of the building. A few minutes later the building was in flames.

Several of the mountaineers came to the windows and were immediately shot down. Lee Turner and some of his friends escaped and are now in Mingo Mines, eight miles from Middlesboro. Several of his men perished in the flames.

## WORKINGMEN MAY EAT MEAT IN LENT

Their Cause Was Pleaded to the Pope  
By Archbishop Ireland and  
Request Granted.

New York, Feb. 13.—The United States now shares the privilege heretofore enjoyed only by Spain of being the only country where Catholics are accorded a special dispensation from Lenten abstinence. It is Archbishop Ireland who obtained this notable concession from the pope.

The archbishop relates that when walking to his home one day at the noon hour he observed a party of laborers who had been working at an excavation sitting on the sunny side of a fence eating their noonday meal. They were Catholics; it was a fast day and their repast was bread with a little condiment.

Within an hour he had written to the pope petitioning him to relieve American workingmen of the Catholic faith from the law of abstinence from meat during Lent and suggested that they might, as a compensation, abstain from intoxicating drinks for the same period.

In an autograph letter in reply Leo XIII. congratulated Archbishop Ireland on his zealous interest in the working classes and granted the requested dispensation.

## MILLERS FORM A GIGANTIC TRUST

Twenty Thousand Companies Included  
in the Deal With a Capital  
of \$700,000,000.

Chicago, Feb. 13.—An organization of the millers of the United States under a general head, was effected here today. Twenty thousand milling companies are included in the organization, representing a capital of seven hundred millions. Central headquarters will be located in Chicago or Minneapolis and probably branches in New York, St. Louis, Cincinnati, New Orleans and San Francisco. The purpose of the organization is said to be for the securing of concessions and legislation of benefit to millers.

It is denied that an advance of prices is contemplated although such a step is not unlikely.

## MASONS TO MEET IN THE CREAM CITY

About 1,000 Members of the Order  
Are to Attend Their State  
Convention.

Milwaukee, Feb. 13.—About 1,000 Masons and members of the order of the Eastern Star will be in the city next week, when three state conventions will be held. The principal business of public interest to be transacted will be the election of officers. An interesting incident in connection with the convocation of the grand chapter of Royal Arch Masons of the state, on Feb. 18, will be the occurrence of the thirtieth anniversary of the election of David H. Wright of Madison as grand treasurer.

Republican ward clubs have begun to endorse the candidacy of C. H. Anson for mayor, the Twenty-third ward leading off. Anson has consented to let his name go before the convention. La Follette men have organized clubs in the city and are holding meetings. The may endorse T. H. Brown, but he has not consented to become a candidate of that faction, and he will give no such consent for the use of his name.

## GAS ASSOCIATION MEETS AT MADISON

Delegates From Wisconsin Cities Dis-  
cuss Their Interests Behind  
Closed Doors.

Madison, Wis., Feb. 13.—The Wisconsin Gas association began its annual convention here yesterday. The convention is being held in the senate chamber of the capitol. President George Mac Millan of LaCrosse is presiding. Mayor Storm Bull delivered an address of welcome. The president made a brief response. The doors were then closed and the convention got down to business.

In his annual address President Mac Millan recommended that the association or a number of its members establish a central plant for the distillation of coal oil. A by-product of gas plants using the coal system. No action was taken on the recommendation today. If such a plant was established it would prove a source of considerable revenue to all gas companies interested. President Mac Millan also reviewed the gas business of the past year, which, he said, had proven fairly satisfactory. He predicted, however, that the coming year would show marked improvements in it.

Twenty-six corporations are represented by the forty delegates present, and six new members were voted in. It is expected that the membership which was sixty at the time of the organization in Racine last year will reach seventy-five before the close of the session.

## LORD DUFFERIN'S ACTIVE CAREER

Held Many High and Responsible Of-  
fices Under the British  
Government.

London, Feb. 13.—Frederick Temple Hamilton-Temple-Blackwood, the Marquis of Dufferin and Ava, who died yesterday, was born June 21, 1826. He was educated at Eton and received his degree from Oxford university. He succeeded to his father's title of Baron Dufferin in 1841 and served as lord in waiting on the queen.

He was sent by Lord Palmerston in 1860 as British commissioner in Syria to prosecute inquiries into the mass-

MARQUIS OF DUFFERIN.

acre of the Christians in that country. He was made Under Secretary of State for India and Under Secretary for War in 1866.

Under Gladstone he was made paymaster general and held that office until 1872, when he was appointed governor general of Canada. In 1878 he was succeeded by the Marquis of Lorne.

In the latter year he returned to London and was elected president of the Royal Geographical society. In the same year he attended commencement at Harvard university and received a degree of LL. D. from the American college. The university of Dublin and the university of Oxford afterward conferred the same degree. In 1879 he was appointed Ambassador at St. Petersburg and was transferred to Constantinople in 1881. After adjusting the affairs growing out of Arab's rebellion in Egypt, he proceeded to India as viceroy. This was in 1884. Four years later he was appointed Ambassador at Rome, and to the French Republic in 1891. He retired in 1896.

Ahead of World's Record  
New York, Feb. 13.—The surviving teams in the six day walking match passed the five hundred mile mark this morning. The leaders are still miles ahead of the world's record.

## FEAR OF DEFEAT IN THE SENATE

Renovated Butter Amend-  
ment in Oleo Bill May  
Cause Debate.

## THE CHANGE MADE

Penalties For the Violation  
of the Act Are Made  
Very Severe.

## HARD ON HOTEL MEN

Washington, Feb. 13.—The Oleo bill as passed by the house yesterday afternoon is somewhat modified from the form in which it was reported from the committee on agriculture. It makes oleomargarine or imitation butter or cheese transported into any state or territory for use, sale, or consumption therein subject to the laws of such states or territories, notwithstanding that it may be introduced in the original packages, and imposes a tax of 10 cents per pound on oleomargarine made in imitation of "butter of any shade of yellow." When not made in such imitation the tax is reduced to one-fourth of one cent per pound.

Hits at Hotelkeepers  
The second section is intended to prevent dealers, hotel proprietors, restaurant and boarding-house keepers from coloring the uncolored article, by making any person who colors the product, and then sells or furnishes it to others, a manufacturer within the meaning of the act.

Penalties for violation of the act are a fine of not less than \$50 nor more than \$500 and imprisonment for not less than thirty days nor more than six months.

Fear Defeat in Senate  
A determined effort was made by those having the bill in charge to prevent the acceptance of the renovated butter amendment, but it was adopted by a vote of 152 to 124. Representative Hill of Connecticut, who has charge of the bill, expressed the opinion after it had passed, that the renovated butter amendment would cause its defeat in the senate. This fear is entertained by other friends of the bill, but is not shared by the opponents.

Will Cause Hearings  
Unquestionably the renovated butter amendment will cause hearings to be granted by the senate committee on agriculture. A new subject has opened and a wide field for discussion presented. It will be within the power of the opponents of the oleo bill to use the renovated butter amendment as a pretext for prolonged hearings, lasting maybe two or three months.

The feature of the bill passed by the house most generally criticised is that clause which imposes a tax of \$600 a year upon all who mix ingredients or coloring matter with oleomargarine or make it look like butter. This section will undoubtedly be corrected in the senate.

A Great Improvement  
"The bill as passed is a great improvement over the measure of a year ago in many ways," said Chas. V. Knight of Chicago, secretary of the National Dairy Union. "It completely shuts the door against fraud. I think the process butter feature of the bill will strengthen it rather than weaken it in the senate, as our friends fear, as it will leave no grounds for charge of discrimination between what is claimed to be two frauds in the butter line. Had this amendment not been adopted a separate bill would certainly have been reported, as there is a great demand for such a law."

## SUFFRAGE WOMEN ARE IN SESSION

Two Important Propositions Submitted  
By President Catt in a Forceful  
Annual Address.

Washington, D. C., Feb. 13.—The first international woman suffrage conference and the thirty-fourth annual convention of the National American Woman Suffrage Association is in session here today with an unusually large number of delegates in attendance. The convention was presided over by Mrs. Carrie Chapman Catt, its president.

Two propositions submitted by President Carrie Chapman Catt in her forcible annual address, were referred to a sub-committee, who are to report to the full committee on Friday. The first has for its object the promoting of equal suffrage sentiment, which, she said, has been used successfully in France. It embodies the creation of a woman's postage stamp the same as in France, to be placed alongside the regular stamp.

Her other proposition was that each state suffrage association shall appoint a state historian to keep a record of all interesting facts.

Following the meeting of the executive committee the delegates from foreign countries gathered in conference or the purpose of considering the question of the formation of an international woman's suffrage association. Miss Susan B. Anthony was chosen to preside over the sessions of this body.

Ben Dugan has resigned his position with the Regal Spice Co., and has entered the employ of T. Riley, the baker.

## Leaf Tobacco Notes

The warm weather of this week has caused the local buyers to become more active and several are riding in this vicinity and other sections of the state in quest of the weed nicotiana, and more sales have been made by the tobacco farmers than for several weeks past. Buyers are looking for the best crops and when they find them they seem willing to pay a good price for them. In fact the prices paid for the best grades are a shade better than were paid several years ago.

But it should be borne in mind that there is a considerable quantity of short, thick tobacco, that is not binder tobacco and is not even fit for export stuff, on account of its being so short. Export grades that command the highest prices abroad are of good length, above 20 inches. Anything shorter than that sells at a low price across the ocean and in this country is converted into strip stock, unless of good quality.

All tobacco under twenty inches in length is not sold for export, or used for strip stock, as some of it is thin in texture and of good substance. This is used for binder purposes. But considerable of the tobacco grown in this state in 1901 is not only short but is thick in texture and dead as to substance, caused by the adverse circumstances under which the tobacco grew.

This is unfortunate for many of our farmers, but no one is to blame but the weather man. These poor grades will never bring a good price for any purpose. The demand for old goods is active, but sales are limited, owing to this shortage of goods for sale.

Work around the warehouses is moving along slowly, only a few assorting rooms being in operation. Geo. H. Rumrill and Fisher & Fisher started their assorting rooms this week and there are about 300 persons employed in all the assorting rooms, where a year ago there were about 800 persons employed at the same work.

M. H. Soverhill of this city had an experience that is probably the most unique in the history of Wisconsin. He is probably the first grower and packer in this state. The first crop of tobacco he ever raised he sold to Jacob Friedman of Chicago, the pioneer leaf dealer in Chicago, in 1859. Last week he sold a lot of the 1900 crop to the son, Henry C. Friedman. There is a lapse of half a century between the deals of sire and son.

While there is a general complaint among the dealers of a dull market, it is quite evident there is considerable tobacco being purchased throughout the growing sections, and much of it, too, at prices that have prevailed earlier. The aim, so far, of course, has been to secure selections. The farmers now have their tobacco stripped and the goods are sold on their merits.

J. M. Conway, George Underhill and C. F. Tallard are in the tobacco sections. The farmers now have their crops of the new crop, which will be shipped to this state to be assorted and packed. The former has about 5000 in transit now.

A few fair-sized transactions in old goods have taken place during the week, the most important one being the sale of nearly 800 cases of 1900 by Eckhardt & Co. of Vernon county leaf, to L. Bamberger & Co. of Philadelphia. A. N. Jones sold two lots of 1900 aggregating 355 cases

and A. L. Fisher & Co. have disposed of 350 cases.

Tobacco is being delivered at the packing points about as fast as is needed for warehouse handling, and is generally in unusually good packing condition. Shipments, 400 cases. —Edgerton Reporter.

The output of our cigar industry in its two largest centers, the 9th Pennsylvania and our own Metropolitan districts, for the month of January 1902 was a remarkable increase that if continued in the same proportion 1902 will turn out to be another phenomenal, record-breaking year, says the U. S. Tobacco Journal. The increase in the 9th Pennsylvania amounted to eight millions, while the increase in our Metropolitan districts reached twenty-seven millions in a single month, seventeen millions in the full fledged cigars and nine millions in little cigars. Surely the leaf market should reflect a corresponding condition in business. It is, however, not on the surface in the leaf market; that is to say, large transactions are still lacking, while business is undoubtedly steady. The consumption of cigar leaf growing from month to month, from week to week, and from day to day, these took of leaf is bound to be absorbed, and if not in large quantities by leaps and bounds, then by a steady and continuous demand for a supply for the day, week or month. It is a fact that the accumulation in warehouses are being thinned out and thus space made for new supplies. Some of them, however, will fall very short of the demand chiefly binders. Inquiries for Wisconsin have been urgent and most of the houses are not any more in a position to gratify them.

The Havana market is in a firm condition. Old Remedios, if not too high in price, are selling fairly, while there is no abatement in quest and purchase of factory vegas. The new crop in Cuba does not reach half of the previous year's quantity and the wrapping leaf in it is woefully short besides.

There have been many sales of late of the 1901 Tobacco crop, but ridiculously low prices. No one of them, hardly, as high as seconds are worth, and very many at barely filler prices. We have the name of one grower who sold seven or eight tons at 11 1/2 and 5 cents. Some claim that nearly or quite half of the Connecticut Valley crop is sold. It seems as though prices were improving, as that now held is largely by men that are having their crops packed and are as were at first offered. So they are having their crops packed and will hold for the sweat. We have heard of one grower who, in assorting, finds no more damage than is shown in average years, and says his crop is assorting nearly or quite 60 per cent. of fine light wrappers. Others say that the bulk of the late cut Tobacco is remarkably free from damage of any kind.

Our correspondents write: Whatley.—Buyers have been busy the past week. 12 acres at 15 cents, 8 acres at 14 cents and number of lots, from 3 to 4 acres, at 7 to 12 cts. Simsbury, Conn.—The 1901 crop of tobacco is mostly sold. Prices range from 12 to 17 cents in the bundle.

East Hartford.—The bulk of our Seed Leaf Tobacco is sold. We have considerable pole burn. With this out prices have been from 6 to 12 cents. —American Cultivator.

in C's granary, and it was returned home. When the six original sacks were returned to A. by B., one of them bore the name of Mr. C. A. accused B. of being in C's granary for wheat, which was probably the true history of the sack deal. A. and B. are now dead, but C. is still living and he will never forget the peculiar peregrinations of the neighborhood sack of thirty or more years ago.

The man who sacrifices the surface of a soil covered with stalks and trash is a speculative business that is more precarious than the board of trade. It is worse than dealing in futures, for the future will have to be bright if he obtains a good yield.

According to spiritual and physical laws the body and soul do not require the same nourishment. They differ in a degree and theologians also differ in regard to them. Farmers differ also and sometimes an owner is very much mistaken about his own farm. The soil may be termed the body of the farm and its fertility the soul. The soil can be seen but the fertility is only visible in its effects on growing crops. The land may be kept all right and the fertility allowed to escape, made inoperative because of weeds or become lost. It remains with the farmer to keep the soul of his farm in a thrifty condition.

How is the stock being wintered? Any animal that is worse off in the spring than it was last fall has been improperly wintered and no mistake.

At this season of the year we begin to wish for spring. We look at the almanac and note when Easter is to come, and other evidences of any early spring are looked for. Notwithstanding the fact that Easter comes early this year, it will be wise to "have half the corn and half the hay" at this time. It is a long time before pastures can be counted on for keeping stock. Stock will need better care and more feed in the latter part of winter than has been the practice in the part that has passed. A great deal of the female portion of the stock will require special feeding and management from now on until spring ere the advent of young calves, lambs, colts and pigs.

When the thermometer is dangling down below the zero point the farmer does not like to think about the hot feed. It is then that he should give the matter some thought, for after the first of February the time will soon be at hand for starting "early vegetables."

A farm is worth just what it will sell for. It will sell according to the buildings and improvements on it. These have been built by the fertility of the soil and after all then, a farm is valuable according to its productiveness. The farm that is poor and unproductive is not worth as much as the one with the opposite characteristics. If a farm is bought for a home, then the matter of convenience will be taken into consideration. —Wisconsin Farmer.

## STUDY CLASS OF THE EASTERN STAR

Fortnightly Meeting Held Yesterday Afternoon—Celebrate Anniversary of A. Lincoln.

The Eastern Star Study class held its regular fortnightly session yesterday at three o'clock p. m. with Mrs. H. L. McNamara. The meeting was called to order by the president, who spoke of it being the 33rd birthday anniversary of the "Great Emancipator" and our first martyred president—Abraham Lincoln. How the day was being so generally observed in Illinois, and read the "Proclamation" issued by Mayor Carter Harrison, making a holiday in all departments of police, fire, health and electrical departments which remain open for the transaction of all necessary, and unavoidable business.

Prof. Henderson of the University of Chicago compares Lincoln to "the old Prophet Samuel." "In his broad sympathies, his unselfish devotion to the people and his practical wisdom. Both stand out prominently in history as great minds and prominent leaders of men."

The Study Class is progressing slowly and the department of Science proved a most excellent subject. The program was as follows:

"Marconi, Progress and Success," Mrs. Merritt; Reading, "Improvement of Club Life Among Women," Mrs. Harrington; "Wireless Telegraphy; Its Advantages and Disadvantages," Mrs. Kerch; Reading, "A Reporter's Interview of Signor Marconi at the Hoffman House, New York," Miss Hutchinson.

This remarkable young Italian's birth, life, his invention, progress and marvelous success was given in a concise and comprehensive manner by Mrs. Merritt and Kerch, in their well written papers. The latter, being detained at home, her paper was read by Mrs. Kimberley. Mrs. Nowlan read "Marconi's Achievement" from McClure's February monthly, by request.

Mrs. McNamara served refreshments of coffee, sandwiches and fried cakes.

Congregational Home Gathering. The annual Home Gathering of the Congregational church will be held this afternoon and evening. This meeting is always held on the Thursday nearest the anniversary of the society. The first meeting will be called at three o'clock this afternoon when the roll-call of the members of the society will be made. After the roll-call the reports of the various officers will be made. At six o'clock a banquet will be served, after which the clerk and historian will review the season's work, including all meetings, services, new members and removals; also deaths of members of the society. These meetings are always interesting and the one held today promises to be one of the most promising.

## WHEN WE WERE TWENTY-ONE

"HERE'S TO THE DAYS WHEN WE WERE TWENTY-ONE"

"The Belie of New York" drew a fair sized audience to the Myers Grand last evening and the lively performance was enjoyed by all. Those who saw the play last year noted many improvements and changes in the presentation which made it much better. The cast was substantially the same. Miss Beulah Chase Dodge, the Salvation Army Lassie, has grown more bewitching in her part. Burill Barbaretto as Harry Bronson, Joseph Kane as Pumpernick, Arthur Deagon as "Blinky Bul," Mae Sallor and Gertrude Rutledge all carried their parts in a satisfactory manner. The chorus was good.

People who have read "David Harum" will crowd the Myers Grand when that comedy is presented there Wednesday, Feb. 19th, under Charles Frohman's management. Mr. Frohman promises an exact reproduction of the play as it was given to crowded house all last season at the Garrick Theatre in N. Y.

One of the strongest cards booked at the Myers Grand will be Messrs. Nixon & Zimmerman's big organization in "The Strollers," which lately closed an engagement of many remarkable features at the Knickerbocker Theatre, New York. "The Strollers" is an adaptation from the German by Harry B. Smith, staged in this country by George W. Lederer. The music is by Ludwig Engelander, and is said to be full of tuneful qualities.

The mere announcement of the forthcoming of the most successful musical production known to the annals of the Chicago stage, "King Dodo," it is safe to say, will constitute a pleasure to be anticipated by all theatre patrons who delight in high class performances of this kind. "King Dodo" has been to this portion of the country, a parallel success to the English musical play "Florodora" in New York and the east.

the Myers Grand next Monday evening. The story is replete with humor, and the audience alternate the evening with laughter and tears. As to the acting in this glorious play, there is only one thing to be said: it is perfect.

Wrinkles are smoothed away by its healing touch. Brain tired and depressed people will find a cure in Rocky Mountain Tea. 35c. Smith's Pharmacy.

Low Rates to Menominee Wisconsin by North-Western Route Account Wisconsin Dairymen's convention, Feb. 12 to 15. The Chicago & Northwestern railway will sell excursion tickets at excursion rates, limit Feb. 17. For further information apply to ticket agent, C. & N. W. depot.

## Salt Rheum

It may become chronic. It may cover the body with large, inflamed, burning, itching, scaling patches and cause intense suffering. It has been known to do so. Do not delay treatment. Thoroughly cleanse the system of the humors on which this ailment depends and prevent their return.

The medicine taken by Mrs. Ida E. Ward, Cove Point, Md., was Hood's Sarsaparilla. She writes: "I had a disagreeable itching on my arms which I concluded was salt rheum. I began taking Hood's Sarsaparilla and in two days felt better. It was not long before I was cured, and I have never had any skin disease since."

## Hood's Sarsaparilla

Promises to cure and keeps the promise. It is positively unequalled for all cutaneous eruptions. Take it.

## Some Farm Notes.

The adjustment of hames and the fitting of collars on horses is one thing that will admit of no set rule. There is so vast a difference in the shape of necks and shoulders of horses that one cannot fit any two horses accordingly to the same rule. Each farmer should have such knowledge about fitting hames and collars as to not have any sore shoulders when the hard spring work comes. The fact that this can be done is evidenced when we note that some farmers never have horses with sore shoulders and other farmers seldom have horses from them when there is any hard work to do. Now is the time to get ready for spring work by fitting the collars and hames. The collar should fit the horse and the hame should fit the collar.

Twenty or more years ago I transplanted some walnut trees. I had a nursery row of them from the nuts and the next year I planted several of them. Only one of the transplanted ones lived. It had a tap root almost three feet long. It has done but very little good growing. It is about three inches in diameter now and trees from the nuts which have never been transplanted are more than twice as large and have been bearing nuts for several years. Nut bearing trees are very hard to transplant.

Have a perfect understanding with the hired man now and avoid trouble in harvest time. The hand who has received all his wages at harvest time is in a position to leave on short notice. The man who has drawn but little of his money is not so liable to strike at harvest.

If trees are to be set this spring, they should be bought now for shipment just as soon as they can be obtained in the spring and then located in the cave or some place where they can be kept until time can be found to set them out. Don't depend on tags to keep a record of the variety until they come into bearing. Better make a plat of them

giving the names of the trees and file it away.

Fit the horse collar by soaking it over night in water, put on the horse buckle it up so it will fit, put on the harness, and let the horse stand in the barn, or what is better, give him some light work or driving until the collar is dry. Always keep the same collar for one horse. Changing collars sometimes causes trouble.

The improvements that have come in the past fifty years are more than could be counted or named in a large book. In all lines of agriculture there has been improvement. There is improved stock as well as improved methods and still the improvement is going on. We are not content with stopping here.

Calves dropped in February, March and April are more profitable because the cows winter cheaply and well when carrying them, they go to grass with their dams in May, they come in in October in a healthy, vigorous condition, and in winter they thrive on good feed. The breeder can afford to provide a good place at calving time in order to have these conditions.

The brood sow should be looked after these days. She should be kept in perfect health by allowing her to take some exercise, her feed should be of a laxative nature. Some time can be profitably spent in arranging for good farrowing pens. These need not be expensive nor extensive, but they should be convenient and comfortable.

Thirty-five years ago we farmers handled wheat in the central West in sacks. Nearly all farmers had sacks and they were marked with a private mark or with their names. When threshing, it was a common thing for several neighbors to bring out their supply of sacks for use and they were loaned for various other purposes, such as going to mill. Once Mr. A. loaned Mr. B. his sacks (six in number) to go to mill. A day or two later one of A's sacks was found

## HOHENZOLLERN HAS REACHED NEW YORK

Kaiser Wilhelm's Magnificent Yacht is Given a Royal Welcome When It Arrived.

New York, Feb. 13.—The Imperial yacht Hohenzollern, sent here by Kaiser Wilhelm for the use of Prince Henry of Prussia during his forthcoming visit, arrived yesterday from Kiel. She was not expected, for she came by the southern circle, and it was calculated that the run would take at least one day more than it did. It had also been thought that she would touch at Bermuda and that place had reported her as two days overdue. The weather encountered was unfavorable for a call at Bermuda and at sea Admiral Count Von Baudissen abandoned the partly formed plan and shaped his course for New York.

Passing craft gave the Hohenzollern a noisy welcome with their whistles and the man at her jackstaff was kept busy dipping her big naval flag with its field of white, black Prussian eagle and black cross.

The North German Lloyd pier at Hoboken, where she is to be overhauled, was not ready for her reception, and she dropped anchors in mid-stream until a fleet of tugs cleared a berth for her. At 4 o'clock the yacht bore her anchors and, guided by two tugs, was carefully warped into the pier. Admiral Von Baudissen was formally welcomed to New York by a civic committee, a representative of Mayor Low and an officer of the United States navy. The civic committee was headed by Capt. A. T. Mahan, U. S. N., retired. Captain Mahan spoke briefly, greeting the admiral and his officers and ship in the name of the people of the city.

The admiral thanked the committee and through its members the citizens of New York. Private Secretary James Reynolds left the card of the mayor and Capt. Converse of the battleship Illinois made the formal call in behalf of the navy.

The sky looks bluer, the sun shines brighter, a feeling of youth and strength creeps over the soul after taking Rocky Mountain Tea made by the Madison Medicine Co. 35c. Smith's Pharmacy.

**Special Excursion to California.**

**American Rights Safeguarded.**

Peking, Feb. 13.—United States Minister Conger has obtained official assurances safeguarding the rights of the American Canton-Hankow syndicate, which were threatened by similar concessions to Belgians. Prince Ching, president of the foreign office, says the concessions granted to Belgians by local officials are worthless unless ratified by the government, which will not grant anything prejudicing American rights.

**Responsible for Costing Accident.**  
Peoria, Ill., Feb. 13.—The coroner's jury in the inquest over Wallace Markley, the boy who was killed a week ago in a costing accident, returned a verdict in which the city is held responsible for his death, and the street car company is exonerated. The jury claims that the city authorities should have enforced the ordinance prohibiting costing or should have furnished police protection.

Every woman in the country ought to know about

## Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy.

A prominent lady of Lamberton, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

Get Mother's Friend at the drug store, \$1.00 per bottle.  
**THE BRADFIELD REGULATOR CO.**  
ATLANTA, GA.

## FOR SINGERS AND SPEAKERS.

The New Remedy For Catarrh is Very Valuable.

A Grand Rapids gentleman who represents a prominent manufacturing concern and travels through central and southern Michigan, relates the following regarding the new catarrh cure, he says:

"After suffering from catarrh of the head, throat and stomach for several years, I heard of Stuart's Catarrh Tablets puffed accidentally and I every thought, I immediately bought a package and was decidedly surprised at the immediate relief it afforded me and still more to find a complete cure after several weeks' use."

"I have a little son who sings in a boys' choir in one of our prominent churches, and he is greatly troubled with hoarseness and throat weakness and on my return home from a trip I gave him a few of the tablets one Sunday morning when he had complained of hoarseness. He was delighted with their effect, removing all huskiness in a few minutes and making the voice clear and strong."

"As the tablets are very pleasant to the taste, I had no difficulty in persuading him to use them regularly."

"Our family physician told us they were an antiseptic preparation of uncooked meat and that he himself had no hesitation in using and recommending Stuart's Catarrh Tablets for any form of catarrh."

"I have since met many public speakers and professional singers who used them constantly. A prominent Detroit lawyer told me that Stuart's Catarrh Tablets kept the throat in fine shape during the most trying weather, and that he had long since discarded the use of cheap lozenges and troches on the advice of his physician that they contained too much toll, potash and opium as to render their use a danger to health."

Stuart's Catarrh Tablets are large, pleasant tasting lozenges composed of catarrhal antiseptics, like Red Gum, Blood Root, etc., and sold by druggists everywhere at 50c for full treatment.

They act upon the blood and mucous membrane and their composition and remarkable success has won the approval of physicians, as well as thousands of sufferers from nasal catarrh, throat troubles and catarrh of stomach.

A little book on treatment of catarrh mailed free by addressing F. A. Stuart Co., Marshall, Mich.

## LOOKS FOR ULTIMATUM.

German Warships Gathered at La Guayra with a Purpose.

Berlin, Feb. 13.—It is semi-officially stated that the German cruisers Vineta, Falke and Gazelle are at La Guayra to-day. It is expected that an ultimatum will be presented to Venezuela at once.

Want Another Federal Judge.

Chicago, Feb. 13.—The need of an additional Federal judge for the Seventh Judicial Circuit was urged yesterday afternoon at a special meeting of the Chicago Patent Law association. The members advocated the passage of bills recently presented in the Senate by Senator Cullom and in the House by Congressman Reeves. The Chicago Bar association is expected to take similar action in a few days.

Testing Coins at the Mint.

Philadelphia, Pa., Feb. 13.—The United States assay commission appointed by President Roosevelt to officially test the 1901 coinage of the mints in this city, San Francisco and New Orleans, assembled yesterday at the new mint here. Coins from the San Francisco and New Orleans mints were forwarded to this city. The object of the assay is to insure uniformity in the weight and fineness of the coins.

Trust Attorney Dies.

Duluth, Minn., Feb. 13.—Judge Daniel A. Dickinson died yesterday morning after an illness lasting two years. Judge Dickinson had been a resident of Duluth since 1891, at which time he left the Supreme bench of the state of Minnesota and entered again the active practice of law. His firm became general attorneys for the United States Steel corporation.

James Brothers Secure Injunction. Kansas City, Feb. 13.—Judge Tensdale in the circuit court yesterday granted the application of Frank James for an injunction to stop the production of "The James Boys in Missouri," a drama depicting the James boys as train robbers and bank looters.

**Danger of Colds and La Grippe.**  
The greatest danger of colds and La Grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of La Grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Peoples Drug Co. and King's Pharmacy.

## HOMEMADE DRESSES.

THE SHIRT WAIST AND HOW TO MAKE IT IN MANY STYLES.

A Model Upon Which Many Variations May Be Based—Clear and Simple Directions For the Inexperienced Seamstress To Follow.

(Copyright, 1902, by American Press Association.)

This shirt waist is the model upon which all others are founded, and wherever one desires to make changes they can be made without in any way altering the form of the model. There are two ways of making this as a model, one being to have a snug and well fitting lining to which the outside is gathered and the other being just the loose tucked and gathered shape, as is seen in the illustration.

The way in which the tucks are laid, whether diagonal or cross, short or

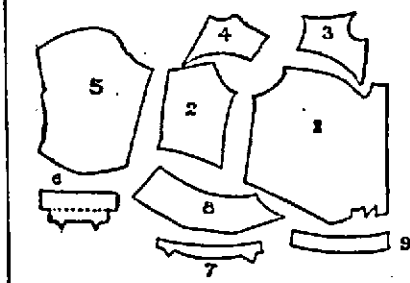

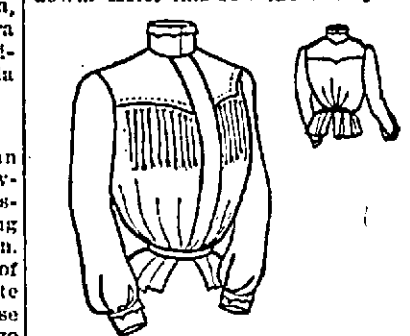

DIAGRAM OF MODEL SHIRT WAIST.

long, in clusters or all of one size and width apart, depends entirely upon the taste of the dressmaker, and if several waists are to be made it is well to vary the manner as far as possible. The best way to have them is straight, when the figure is rather stout, while slender figures look well in the yokes, but each is quite at liberty to suit herself.

The pattern of this waist is in sixteen pieces—viz, two front yokes, one back yoke, two front pieces, one back, two basques, one belt, one undercollar, two outside collars, two sleeves and two cuffs. To make a waist of goodly thirty-six inches wide requires three yards and two yards of lining of the same width if the waist is to be lined.

If made of damask or cashmere or any of the suitable materials for such garments, excluding cottons, lining is better and should be cut and made separately from the outside, it becoming thus something like a corset waist to hold the figure in shape. It can be stiffened with featherbone, which comes ready prepared for application.

Galatea cloth makes a handsome waist, so we will consider that as a cotton material thirty-six inches wide. The first thing is to cut the fronts, marked No. 1 on the diagram. If the waist is to be tucked very closely, it is better to cut off the length first and run in all the tucks, after which cut out the shape around the arms and down the top to fit the yoke. The middle fold projects up as far as the top of the neck on the yoke. When this is done, gather the upper part of the front and set the yoke on, being careful that the yoke falls over the other part smoothly. There must be no bulge. Fold the centerpiece over the yoke and stitch yoke and front together and then stitch the middle fold all the way down. After this sew the back yoke to

FINISHED WAIST.

the rest in the same manner, being careful to get the fold of the back directly even with the point of the yoke. There are no gathers at the top of the back where it joins the yoke.

If the waist is to be lined, the lining previously finished is now to be basted to the outside all around, neck and sides; also the bottom, as the lining should have been tried on to be sure that it fits. In the center of the back at the waist line four small folds are laid in the outside and drawn down closely to be sure that the waist will not draw. If the sleeves are to be lined, the lining is cut all in one with the outside and sewed up in with them.

The cuffs are the same in all the waists where bishop sleeves are worn, and that will be very nearly all the shirt waists, of whatever material. The cuffs are cut all in one piece, in such a way that the wrist part is straight, while there is a cuff made in one with it, cut in points, as can be seen in the diagram. The wrist is to be measured and half an inch allowed for seams. The cuff part is one inch shorter and double notched. The cuffs should be interlined with stiff linen, no matter what kind of material is used for the waist. When they are basted and sewed around, they are to be turned and stitched along the edge. These cuffs are the distinguishing part of the new waist. They button at the wrist.

The collar has a curved band to fit closely, and two half collars are made, with notched points, and set at the top of the undercollar to fall over. Many ways can be invented to produce an original effect by the use of lace, embroidery or some other trimming.

The basque portion is arranged so that it may be left off, or rather, left to go under the skirt or be worn outside. It is made just large enough to reach around the hips and is four inches deep, with an inverted plait at the center.

## MACCABEES

Insurance protection through the order reminds us of the old German proverb, "If he threw a penny on the roof, down would come a dollar." Don't say you can't afford to provide for yourself and family. Every penny you put into the order's treasury is blossoming into dollars for some home. Yours may be next.—Beelieve.

The certificates of a well governed, safely planned and a financially sound fraternity are the government bonds of life insurance. This statement is worthy of your serious consideration.

S. S. Foutz, new state commander for Virginia, is calling "to arms" every Maccabee in the Old Dominion.

C. O. Truster is rallying the "boys" in Manitoba and the Northwest Territories, in the Canadian Jurisdiction.

A member thirty-five years of age can provide a thousand dollars of protection for his family and pay his annual dues to the Maccabee order for 4 cents per day.

Our First Tool Factory.

The first satisfactory of edged tools, including axes, hatchets, chisels and cutlery, was opened in Hartford, Conn., in the year 1826. Previous to that date it is said that coarse butcher knives and hunting knives were made by blacksmiths, and the better quality of cutlery was imported from England.

Li Hung Chang's Will.

When the late Li Hung Chang visited Germany a few years ago the Kaiser asked him, "How do our women compare with those of China?" "I really cannot tell," said Li, slyly, fastening his eyes on the corage of a lady who was present; "we never see half as much of our women as you do of yours."

## Brazilian Balm

Old Grip, Coughs, Croup. 10c. 25c.

Sorry She Killed Animals.

Lady Florence Dixie, credited with being the most noted shot among English women, has abandoned hunting entirely and has purchased a pamphlet on "The Horrors of Sport." She has killed lions in Africa, gazelles in Arabia, bears in the Rockies, and now regrets for all her "misdeeds."

## CASTORIA

Chinese Capital May Be Moved.

London, Feb. 13.—"It is reported here," cables the Shanghai correspondent of the Standard, "that the Yangtze viceroys, Chang Chi Tung and Lu Kun Yi, are going to Peking to discuss a proposal for removing the capital of the empire either to Hsiang Yang Fu or Nankin."

## "A HELPING HAND"

Is Gladly extended By a Janesville Citizen.

There are many enthusiastic citizens in Janesville, prepared to tell their experience for the public good. Testimony from such a source is the best evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Veteran A. F. Lee, of 61

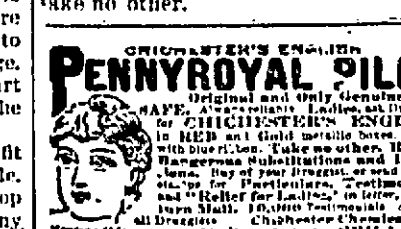

Sharon St., carpenter, says:

"For twenty years I troubled me a great deal, many days I could hardly keep at my work, and by rights should have said at home and doctored. It was seldom that my back did not ache, and I have been completely laid up for three or four days at a stretch. When stooping or lifting sharp twinges penetrated the kidneys, the secretions from those organs were too frequent, and accompanied by pain. I used all kinds of remedies but none gave permanent relief. Obtaining Doan's Kidney Pills at the drug Co., I took them, and after the first three or four doses a noticeable change was brought about. I improved steadily from then on and on completing the treatment I was in good condition and am now well."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S. Also on sale at King's Pharmacy.

Remember the name, Doan's and take no other.

PENNYROYAL PILLS

CURE YOURSELF!

Use this for menstrual discharges, irregularities, irritations or ulcerations of the uterine membrane, Pains, and all nervous and general ailments. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for \$1.00, or a bottle, 50c. Circular sent on request.

## KIDNEY TROUBLES.

Mrs. Louisa M. Gibson Says That This Fatal Disease is Easily Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I felt very discouraged two years ago. I had suffered so long with kidney troubles and other complications, and had taken so much medicine without relief that I began to think there was no hope for me. Life looked so good to me, but what is life without health? I wanted to be well."

MRS. LOUISE M. GIBSON.

"Lydia E. Pinkham's Vegetable Compound cured me and made me well, and that is why I gladly write you this, and gladly thank you; six bottles was all I took, together with your Pills. My headache and backache and kidney trouble went, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty."—Mrs. Louise Gibson, 4813 Langley Ave., Chicago, Ill.—\$5000 forfeit if above testimonial is not genuine.

If you feel that there is anything at all unusual or puzzling about your case, or if you wish confidential advice of the most experienced, write to Mrs. Pinkham, Lynn, Mass., and you will be advised free of charge. Lydia E. Pinkham's Vegetable Compound has cured and is curing thousands of cases of female trouble.

STATE OF WISCONSIN—IN Circuit Court

ard, plaintiff, vs. Archibald Woodard, defend-

ant.

Notice is hereby given that, in pursuance and

by virtue of a judgment duly docketed in the

office of the clerk of the circuit court for Wal-

worth county, state of Wisconsin, and an exe-

cution duly issued out of and under the seal of

the said Circuit Court for Walworth county, in

the above entitled matter, on the 15th day of

January, 1902, which said judgment was duly

docketed in the office of the clerk of the circuit

court for Rock county, Wisconsin, on the 10th

day of January, 1902, and to me directed and

delivered, I have seized and levied upon and

will offer for sale and sell at public auction, to

the highest bidder for cash, at the Court House

door of the court house in the city of Janesville,

in said county of Rock and state of Wisconsin,

on the 8th day of March, 1902, at 2

o'clock in the afternoon, all of the right, title

and interest which the said Archibald Wood-

ard had in and to the following described lots,

lands and real estate, situate in said county of

Rock and state of Wisconsin, to-wit: lots number

five (5) and six (6), in block number eleven (11) in the

village of Clinton, in said County of Rock, ac-

cording to a plat thereof filed for record in the

office of the clerk of the circuit court for Wal-

worth county, state of Wisconsin, and an exe-

cution duly issued out of and under the seal of

the said Circuit Court for Walworth county, in

the above entitled matter, on the 15th day of

January, 1902, and to me directed and

delivered, I have seized and levied upon and

WEATHER FORECAST.  
Snow tonight and Friday; warmer.

## SAINT VALENTINES DAY.

Tomorrow is St. Valentine's day and while the weather may not be very suggestive of babbling brooks and springing flowers, yet the old legend records the date and the fourteenth of each succeeding February is a reminder of the fact that the day is here. There is something about the observance of this old time honored custom, that is suggestive of perennial youth, reminding the gray haired maiden of sixty and her thin haired spouse, that growing old is a myth, and not a reality.

Just why cupid is always pictured as an infant in scant attire, supporting a pair of white wings, that are supposed to give him the appearance of an angel, has never been fully explained. The supposition is that the inventor of the device, considered it perfectly safe to copy an angel, for no one would be able to dispute the correctness of the likeness.

The Liberty taken with language in expressing sentiment, is frequently quite personal, but nude angels with white wings and love sick poetry are always admissible on St. Valentine's day.

The boy of fifteen and the miss of a dozen years, come nearer to having heart to heart talks on the fourteenth of February than any other day of the year. There are one or three reasons why this is so. One is, that no penmanship is required, and as this is a lost art in modern education, the young people are saved embarrassment.

Then a Valentine covers a multitude of sins. When the mother discovers the daughter blushing over a bit of choice sentiment, memory carries her back to her own childhood, and she is reminded that among the keepsakes of earlier years, is a ten cent valentine which blossomed into a love that won her heart, and has crowned her life with happiness.

The father looks at his wife and thinks twice before he calls his boy an idiot, as he slyly takes out of his pocket the only letter he has received for a year.

It is well for humanity, in the humdrum of life's drudgery, that St. Valentine's day comes once a year. The average home is destitute of very much in the way of sentiment, and while effusive demonstration does not mean much, an old time reminder of the days when love was young, is not a reckless waste of energy once a year. The mother of the girl with a valentine once had a lover. If she lost him when she gained a husband she is entitled to sympathy. The old anniversary with its legend of flowers and birds, is a good time to renew early obligations and make sacred vows that are not always regarded.

## FAKE ADVERTISING.

Elgin, Ill., Feb. 10.—There is a movement among business men's associations in several of the larger cities of Illinois to put a stop to what is considered an imposition in the matter of advertising. The custom of fraternal, church and other societies and organizations of soliciting advertisements for programs has grown to such an extent that the merchants have found it necessary to take some united action in the matter.

The business men of Peoria have agreed among themselves that they will take advertising space (outside of the newspapers) in but one program, that of the annual corn carnival.

Springfield and other towns, not only in Illinois, but in adjoining states are agitating similar movements against all classes of irregular advertising. Chicago Post.

The movement recorded by the Post, is quite general throughout the state, as well as in other sections of the country. Merchants have been slow to realize, that program, and other advertising of this class is an investment of money, that is worse than wasted. The system is not only burdensome, but in many cases it amounts to a genteel scheme of black mail, and while no threats are made, the business man realizes that patronage is necessary to good will.

A concert of action is necessary to remedy the abuse, and wherever it has been adopted, results are satisfactory. Janesville merchants will do well to follow suit. There is no charity about advertising. It is a plain business proposition. When a man invests good money to reach the ear of the public, he is entitled to results, and if he makes a judicious investment, he is never disappointed. When he invests in programs, and outside schemes, because he lacks the courage to refuse, he is simply donating money to a cause for which he would not expect to be called on for a cash donation, but he makes it through the program, and is never disappointed at lack of results, for he didn't expect any.

The best conveyor of information is the medium which reaches the most people, and that is always the local newspaper. It is a regular visitor to more customers than all other mediums combined, and men who depend on it to talk for them, and who use it intelligently, not spasmodically and then back up what they say, with

goods and prices, never find any trouble in increasing business.

## SHOULD BE RETIRED.

Railroads and other corporations do not hesitate to retire men from active service when they have passed the age of most efficient service, but there is a certain amount of foolish sentiment, about men in public life, which encourages them to continue, when for their own and public welfare they should be retired. This was true of the late John Sherman. His brilliant record and years of usefulness, created a sentiment that continued him in the cabinet, until he became worse than a figurehead.

The present Senator Morgan, of Alabama, belongs to this class of venerable old men, who should be retired from public responsibility. Senator Morgan is chairman of an important committee. In examining Admiral Walker, of the canal commission, he insulted him by asking if his report was based on personal observation, and on being informed that it was, the old man added insult to injury by saying that he presumed his recommendation would have been just the same had he possessed no knowledge of the route.

There are other old men in the senate, who might better be spending their last years in private life. It is no disgrace to be old, in fact old age is the crowning glory of life and entitled to the highest measure of respect and reverence. But when the faculties of mind weaken, and the man through infirmity ceases to be the whole man, the kindest thing for him, as well as for the service, if he be in public life, is to retire him. He may be a child again, when he stands close to the edge of time, and if he is, there is nothing unusual about it, and no occasion for apology. But in this condition he should not attempt to carry heavy burdens, and it is false sentiment that forces them upon him, under the guise of honor.

The city of Milwaukee is likely to have a novel experience in finding out who is city comptroller. John R. Wolf, has been released from confinement, and will contest his claims to the office. While the present incumbent does not propose to let go. The city seems to be a little long on comptrollers.

Senator Hoar, of Mass., continues to be a thorn in the flesh. It is difficult to tell what the erratic old gentleman wants, unless it be the withdrawal of the United States from the Philippine Islands. The Senator will never be quite happy until he retires to private life.

A tug of war between seven fat women and seven lean firemen, occurred at Waukegan the other day. The women won. Why shouldn't they? It takes seven men to move one woman when she gets set. The contest was unequal.

Natural gas has been discovered at Marinette, Wisconsin is already famous for a variety of industries. It is feared that this latest discovery will occupy the time of all inspectors, and cause the game wardens to work overtime.

If a country weekly can be subsidized for \$40, how much money does it take to establish and maintain a city organ? If there is any principal involved, what is the difference in the ventures.

A Racine man has discovered a new source of revenue. He sold \$10 worth of outside the other day to a local physician, for skin grafting. If the market becomes brisk, the crop of weekly willies will be abundant.

If the Detroit savings bank failure was not caused by dishonesty, it was caused by carelessness that should amount to criminal liability. The man Andrews enjoyed too much confidence.

The report that Italian masonry will no longer be a secret organization on account of opposition by the church of Rome, is not credited in this country.

A thrifty housewife at Sault-St. Marie, Michigan, unearthed a nugget of gold the size of a pea, in a baked potato. This has created great excitement in the Michigan potato market.

The brigands who are holding Miss Stone in captivity, are said to be open to new negotiations. The country will be prepared for another story of release.

## PRESS COMMENT.

Fennimore Times: We watched that man day after day, during an entire legislative session, enabling us to form a personal and intimate acquaintance with him, and in justice and fairness to him feel bound to say that he is just like the stuff his Puritan ancestors were made of, stern, honest, conscientious and incorruptible. In our opinion he is the strongest, ablest, cleanest, and by far the most available man the stalwarts could have decided upon.

Beloit Free Press: In these strenuous days when every conceivable and inconceivable method is adopted by newspaper publishers to increase the circulation of their publications, three or four publishers over in Grant county have been found who are so conscientious (?) as to refuse to allow the Republican league to subscribe for copies of their papers to be sent to those it was desired to reach with good sound Republican

literature! It is evident that the time has gone by when the "truly good" die young—up in Grant county.

Beloit Free Press: His excellency Gov. La Follette has fired E. B. Helmstreet of Janesville, from the secretaryship of the state board of pharmacy, a position he has held nearly continuously since 1882, or since the creation of the board, to the satisfaction of pharmacists of the state. It is understood that Mr. Helmstreet has paid such close attention to his business that he has had no time to devote to the advancement of the Governor's political interests.

Milwaukee Journal: Just for curiosity, will the good and virtuous politician tell us of any campaign within the last forty years in which the little and sometimes the big G. O. P. organs have not had large expositions to their subscription lists, paid for by the party committees?

Racine Journal: Senator Whitehead may be very clean, temperate man, even of religious tendencies. But all this does not interfere with the level-headed qualifications to preside as executive over this great state.

Oshkosh Northwestern: The Appleton Post has commenced to quote scripture to paper mill owners of that city who are holding out against the demands of their workmen for release from their labor on Saturday nights and Sundays. And the best of it is these same employers are devout church members.

Marquette Eagle: From the testimony before the Senate Philippine committee, it is evident that everything would be peaceful in the islands if it were not for the Philippines.

## AS TO PARTY ORGANS.

A country weekly or a metropolitan daily, advocating the doctrines of a party, or willing to advocate them, a partisan, or of partisan inclination, receives from the party committee a sum of money for a certain number of subscriptions for papers to be sent according to directions of the committee. The papers are furnished as directed, a few hundred from the weekly and few thousand from the daily. An outcry is raised that the papers are bought, especially as to the weeklies. Again, a party or faction wants to reach the public but has no partisan organ willing to do the work. The committee and leaders consult and determine that they must have a newspaper to represent them and their cause. They obtain money from well-to-do supporters and call it stock. They organize a force to run the paper, get the material and start a newspaper, a weekly in the country or a daily in Milwaukee. The whole outfit is for no other purpose than to represent that party politically. The "stockholders" pay deficits and keep it on its feet. This is called a legitimate enterprise.

What is wanted, is to know on what grounds any destination is made. The only apparent difference lies in the fact that in the instance condemned, the papers were existent and willing; in the other case the paper was created entire and has no other reason for existence. Or does the difference lie in the relative cost of the two enterprises? Are not all of them mere organs, partisans, with the advantage of presumably honest opinion in favor of those who are helped to subscriptions? Are such sheets really newspapers or are they organs? To what extent are their opinions to be taken as sound, especially as to these started wholly for the one political purpose? Is it, after all, not possible that each and all really believe in what they are subsidized to advocate? They certainly all alike pay their money and devote their ability to the cause and many of them did this before they were subsidized. Anyway, it all becomes any one of them to disparage another or to impugn its honesty of advocacy.—Mil. Journal.

## THEIR SALARIES GO ON.

Racine Journal: The utilization of the game wardens by the governor may be excused by himself upon the ground that their salaries went on anyway and they might just as well be kept exercising themselves in working for the one responsible for their appointment. These worthy gentlemen who labored so hard during the hunting season and exposed themselves time and time again while on duty to being shot by aspiring but poor marksmen, should have been allowed to rest up during the hard winter season, but not so, and they have been kept upon the move. Not only have they been laboring in the vineyard of the true promise of primary reform, but they have been obliged to carry heavy burdens in the form of many copies of the Milwaukee missionary production, issued in the interests of Governor La Follette. This is not fair to turn the boys into newspaper carriers at all, and there should at least have been a protest on this point, but perhaps the excuse will be, that is what they were hired for, that the people are the game and the governor the law.

## SMILES.

Great Traveler.—The Chinese make it an invariable rule to settle all their debts on New Year's day. American Host.—Yes, but the Chinese don't have a Christmas the week before.—New York Weekly.

"What does this mean?" Inquired the investigating committee. "You have most of your shortage charged up to running expenses." "That," explained the Contrite Embezzler, "refers to my automobile."—Baltimore American.

## BEGGERS PURSUE CARNegie.

While in Pittsburgh the other day Andrew Carnegie was forced to leave the house in which he was staying by a rear door and drive off in a carriage to escape a crowd of people begging money for charitable objects—many of them for libraries. Mr. Carnegie received over 300 begging letters a day.

## UNION LABOR WANTS HAND IN THE JOB

Committee Visits Library Board and Asks Consideration When Building Is Put Up.

At a meeting of the trades council held at Assembly hall last evening two important questions came up. At a previous meeting, consisting of John Coolidge, president of the stone cutters' union; J. C. Osborn, president of the carpenters' union and H. M. Joyce, president of the shoemakers' union, were appointed to confer with the committee having charge of the erection of the public library to see what could be done to insure as possible part of the labor on the library.

The committee reported that they were cordially received and the library people stated that while they had no authority in the matter, every effort would be made on their part to see that as much of the labor as is possible shall be done by local workmen.

This means a great deal to Janesville merchants and they should take some action along the same line. See to it that the local workmen get the lion's share of the money paid out for labor.

The question of holding a general conference of all of the unions of the city was also brought up last evening and favorably acted upon. A committee was appointed to prepare a program and make all the necessary arrangements. The conference will be held some time in March but the date is not set.

## YOUR WANTS

Can Be Made Known Through The Gazette Want Column. 3 Lines 3 Times For 25c.

The following letters await owner in the Gazette want column: "C. M. P.," "A. L.," "G. W.," "A. J.," "A. L. G.," "W. W.," "W. W."

## LARGE DIVIDENDS NORTHWESTERN

### ANNUAL REPORT OF THE BIG RAILROAD IS ISSUED.

Net Increase For 1901 is \$1,845,293  
Over 1900, Total Being \$10,789,  
968—Balance Stands at \$10,747,  
559, a 23 Per Cent Dividend Rate  
on Common Stock.

The annual report of the Chicago  
& Northwestern for the calendar year  
ended on December 31, 1901, has just  
been issued. It shows the following  
results:

	1901.	1900.	Increase
Miles of road	5,335	5,303	32
Gross earnings	\$45,916,020	\$43,651,048	\$2,264,972
Expenses	29,125,052	27,506,113	1,618,939
Net income	\$16,790,968	\$16,144,935	\$645,033
Charges	6,642,409	5,884,195	758,214
Balance, for stock	\$10,747,559	\$9,989,479	\$758,080
Dividends	5,914,394	3,914,391	2,000,003

Surplus, etc. \$4,835,165 \$3,296,085 \$1,539,080  
New equip., etc. 4,169,226 3,542,041 627,185

Balance, .. \$2,665,939 \$1,814,044 \$851,895

### Anticipate Interest Payment

In charges is included \$43,192 for  
1901 and \$103,452 for 1900 interest  
paid in advance of maturity bonds  
taken up and funded into 3 1/2 per  
cents, and allows for a credit of  
\$557,080, for both 1901 and 1900 for  
income from investments.

As the Northwestern issues no  
weekly, monthly, or quarterly state-  
ments during the year, the state-  
ment for its calendar year is of more  
than ordinary interest. In the  
twelve months, on an increase of 245  
in mileage, gross earnings increased  
\$2,264,972 and net earnings \$1,645,  
293, indicating a gain in expenses of  
\$1,219,629. Net fixed charges increased  
but \$208,213, and the balance ap-  
plicable to dividends stands at \$10,  
747,559, or \$1,437,080 more than in  
1900.

### Big Dividend Earnings

Dividends required the sum of \$3,  
914,394, or a little more than one  
third of the surplus, so that in the  
twelve months the company earned  
over 23 per cent. on the common  
stock after allowing for the 7 per cent.  
paid on the preferred. After divid-  
end payments there remained a bal-  
ance of \$6,835,165, from which \$4,  
169,226 was expended for new equip-  
ment, leaving a final surplus of \$2,  
665,939.

## WAITING ON THE ELDERED ESTATE

### Work on the New Library Building Will Probably Commence Early in the Spring.

Matters pertaining to the erection  
of the public library are in an uncer-  
tain condition and will remain in that  
condition until the estate of the late  
F. S. Eldred is settled, which will  
be some time in March next. Mr.  
Eldred willed \$10,000 toward the li-  
brary as a memorial to his daughter  
and that money is not available until  
the estate is settled. This sum, in  
connection with the \$50,000 given by  
Andrew Carnegie gives the library  
board \$40,000 for the building.

The plans have been selected and  
the work of erecting the building will  
commence just as soon as the Eldred  
funds are available.

## ASKED FOR BURIAL AS SUN WENT DOWN

### Peculiar Request Which Was Carried Out at the Funeral of Mrs. John Wright.

Yesterday afternoon the funeral of  
Mrs. John Wright was held at her  
home one mile west of Emerald Grove.  
About twelve years ago Mrs. Wright  
had a lower limb broken and had been  
confined to her bed since that time.  
Decayed had been a resident of  
Rock county about fifty years and  
had a host of friends who will mourn  
her death.

Mrs. Wright made a peculiar re-  
quest before her death and that was  
that the casket containing her re-  
mains should be lowered into the  
grave just as the sun sank below the  
western horizon. The wishes of  
Mrs. Wright were complied with.  
The funeral was held at four p. m.  
and the remains interred in the Em-  
erald Grove cemetery just as the sun  
went down. Mrs. Wright was about  
78 years of age and leaves one daughter.

### Alfred Walker Howe Dead

This morning at a quarter of four  
o'clock death appeared at the home  
of Mr. and Mrs. Fred Howe, 106 South  
Third street and claimed as his vic-  
tim their three months' old baby Al-  
fred Walker Howe. The little fellow  
had a hard cold and notwithstanding  
all that loving hands and a skilled  
physician could do, congestion of the  
lungs developed and the young spirit  
winged its flight to the realms cele-  
stial. Notice of the funeral will be  
given later.

### Adam Wilson Funeral

The funeral of the late Adam Wil-  
son was held from his residence in  
this city this afternoon at two p. m.,  
the Rev. A. H. Barrington, rector of  
Christ church officiating and he spoke  
words of consolation to the members  
of the family. The services were  
largely attended by sorrowing rela-  
tives and close friends. The inter-  
ment was at Oak Hill cemetery.

A large number of beautiful floral  
designs were sent by relatives and  
friends. The pall bearers were his  
three sons, William, George and  
Frank Wilson; and his nephew, A.  
R. Wilkinson. The song service  
was rendered by Mrs. C. T. Yates,  
Mrs. Charles Clark, George Paris and  
H. C. Buell.

Buy dry goods at our special clear-  
ing sale and save money. T. P.  
Burns.

## NEWS OF THE CITY

Fresh fish. W. W. Nash.

For Sale—My new milch Jersey cow  
J. Thoroughgood.

N. K. Fairbank's Gold Dust.

iste, Luxenli Broderie (embroidered  
muslin), ath striped dimity, etc.,  
at 12 1/2, 15, 18 and 20c are  
beautiful beyond description.  
Over 900 pieces of new thin stuffs.  
J. M. BOSTWICK & SONS.

## GOT GOLD MEDAL FROM KING EDWARD

H. C. Dyer of this city has just re-  
ceived word that his brother-in-law,  
Paul F. P. Erdman, who visited here  
a year ago, and brought a number of  
recess from the Boer war in South  
Africa, had been given a gold medal  
by King Edward VII for distinguished  
services. Mr. Erdman was a Lieuten-  
ant of South African Light Horse  
under General Buller. He is a me-  
chanical engineer and is now con-  
ducting a large machine shop in Cape  
Town. He stated in his letter that  
the account of the bubonic plague in  
South Africa was greatly exagger-  
ated and that the cases were confined  
to the lowest classes of negroes.

## MR. S. E. PHILLIPS HAS PASSED AWAY

One of Oldest and Most Respected  
Citizens Died This Afternoon  
After Long Illness.

S. E. Phillips one of the old and  
respected citizens of this city, passed  
away this afternoon at two o'clock, at  
his home, 54 Mineral Point avenue,  
after a sickness of nine weeks' du-  
ration. Mr. Phillips was 71 years of  
age at the time of his death and his  
many years' residence in this city had  
gained for him the respect of all who  
knew him. He leaves to mourn his  
loss two sons, Wendell and George  
Phillips and four grand children. The  
bereaved family have the sympathy of  
a large circle of friends. The  
funeral notice will be given later.

### Mrs. Christian Helmer Dead

Mrs. Christian Helmer, aged 74,  
who has been a well-known resident  
of the town of Center for over twenty  
years, died at the home of her daugh-  
ter, Mrs. Herman Quade, on Feb. 10,  
and was buried on Feb. 12. She left  
a son, William Helmer and five daugh-  
ters: Mrs. E. A. Tinsdell, Mrs.  
Frank Kurgus, Mrs. Herman Quade,  
Mrs. Albert Energer and Mrs. Schroed-  
er. Her death is mourned by many  
friends in the town of Center.

### Tallest Man in the World.

Edward Beupere, of the province of  
Assiniboine, Northwest Territory,  
whose height is seven feet ten and  
three-quarters inches, claims to be the  
tallest man in the world. He is twenty  
years old and is still growing.

### Are You a Houniken?

An Illinois woman has given a new  
word to a woman's vocabulary and  
one expressing a condition in which  
the average woman often finds herself.  
The woman, speaking to a friend,  
said she was a regular "Houniken,"  
which, it seems signifies one who has  
bought her clothes piece meal (usually  
for financial reasons) and never has  
two things new at the same time.

## NEW PHASE OF THE TOBACCO INDUSTRY

### Mr. Giffin Has Received Four Car Loads of Connecticut Leaf Which Will Be Assorted Here.

A new phase of the tobacco indus-  
try is being developed in this city this  
week, and that is the buying and as-  
sorting of tobacco grown in the state  
of Connecticut. This promises to  
furnish work for some of the idle  
assorters and others about town.

For some time past H. S. McGiffin,  
the state agent of Lewis Sylvester &  
Son, of New York has been buying  
leaf tobacco in the Connecticut valley  
and has just received four carloads  
of that tobacco in the bundle. This  
tobacco was loaded at Broadbrook,  
Conn., came direct to this city, and  
is now being unloaded at the large  
warehouse at the corner of Academy  
and West Bluff streets. Other ship-  
ments will follow in a few days.

This tobacco was bought at prices  
ranging from 9 to 15 cents per pound  
in the bundle with an average of about  
eight cents, which price is but a little  
above the average paid for the better  
grades in this state.

The attractive features of the Con-  
necticut tobacco are the bright cinna-  
mon color, so attractive to the eye of  
the expert tobacco man; the good  
spread of the leaf, good body and thin  
firm texture. The leaf is very  
light in weight, one hundred leaves  
weighing less than one-half what the  
same number of leaves of the same  
size grown in this state would weigh.

Next Monday Mr. McGiffin will open  
his assorting room with about thirty  
expert assorters will assort his  
Connecticut purchases in the best  
possible manner and expects to get a  
liberal per cent. of wrappers.

Different methods will be pursued  
in assorting this tobacco, than are  
followed in assorting tobacco grown  
in this state. As Wisconsin is used  
principally for binder purposes, the  
color cuts but little figure, and the  
goods are sized as to lengths; while  
the Connecticut goods are assorted  
as to colors, a large per cent. being  
used for wrapper purposes.

This tobacco will be carefully pack-  
ed and put through a forced sweat,  
which is the favorite method of pre-  
paring the Connecticut tobacco for the  
manufacturer's table.

Sanford Soverhill is in the East  
and is looking over the field in Con-  
necticut with the intention of pur-  
chasing.

## ANNUAL REPORT OF ST. PAUL ROAD

### Gross Earnings For the Year Given in Statement to Treasurer Froch- lich as \$13,536,170.

A Madison dispatch says the state  
treasurer recently received the annual  
statement of the earnings of the C.  
M. & St. P. R. R. The gross re-  
ceipts for the year were:

Passengers.....\$ 2,716,572.23

Mails.....321,829.29

Express companies.....214,811.96

Freight.....9,503,091.92

News service.....1,207.55

Sleeping cars.....91,357.25

Parlor cars.....15,509.15

Extra baggage.....15,091.91

Milk.....40,463.21

Telegraph.....9,075.81

Rents.....30,739.88

Total.....\$13,536,170.24

Receipts by months—

January.....\$ 1,007,929.82

February.....856,378.62

March.....1,064,513.65

April.....1,029,977.07

May.....1,285,375.05

June.....1,088,182.43

July.....1,112,137.77

August.....1,201,259.19

September.....1,284,461.76

October.....1,347,202.70

November.....1,229,230.35

December.....1,193,570.31

Total.....\$13,536,170.24

The number of miles of road in op-  
eration Dec. 31, 1901, was 1,791.17,  
and during the year 1901, 34.57 miles  
were built from the Illinois line to  
Janesville, while the road from Mil-  
waukee to La Crosse was shortened  
.06 miles by a reroute.

The amount of tax or license fee  
for the road for the year was \$541,  
446.82.

## NEW REAL ESTATE FIRM ORGANIZED

Whitehead & Matheson Company Lim-  
ited of Janesville Files Articles  
of Incorporation.

State Senator John M. Whitehead  
is one of the incorporators of a new  
manufacturing, real estate and agri-  
cultural concern called the Whitehead  
& Matheson company, limited, of  
Janesville. Articles of Incorporation  
were filed with the secretary of  
state yesterday by the company and  
the capital stock is placed at \$25,  
000. The incorporators are John M.  
Whitehead, Alexander E. Matheson  
and George P. Parkes.

Senator Whitehead was seen in re-  
gard to this matter this a. m. and  
stated that the corporation has been  
formed to facilitate matters in hand-  
ling real estate in which he and  
Messrs. Matheson and Parkes were  
interested. They both have minor  
children and in case he or Mr. Math-  
eson should die the property could  
be transferred without having to go  
through the long legal process made  
necessary by leaving minor heirs.

The gentlemen own considerable  
property in Whitehead, Matheson &  
Smith's addition, beside other real  
estate and are continually dealing  
in lands. This move will greatly  
facilitate matters and will save much  
trouble in the future in regard to  
looking up the titles to their property.  
This same thing has already been  
done in one or two cases in this  
city.

Deputy Game Warden Peter Dra-  
hah yesterday seized about thirty rab-  
bits that had been caught by two  
young hunters with ferrets.

## NEWS OF A PERSONAL NATURE

Hon. S. S. Jones of Clinton, was in  
town yesterday.

Mayor Douglass of Monroe visited  
our city yesterday.

H. A. Moser transacted business in  
Monroe yesterday.

Wm. Green, of Orfordville, had busi-  
ness in this city today.

E. S. Babcock of Madison, was in the  
city today on business.

E. D. Higgins of Nellsville, called on  
friends in the city yesterday.

F. S. Baines was in Edgerton yester-  
day looking over the tobacco mark-  
et.

Mrs. H. A. Patterson is reported  
quite ill at her home on Milton ave-  
nue.

residents of Orfordville, was in the city  
today.

Dr. H. H. Anderson, of Orfordville,  
was in the city today on professional  
business.

Mrs. Blanche Hurdick of Evanston,  
Ill., is the guest of Mr. and Mrs. E. J.  
Smith.

C. S. Putnam left yesterday for  
New York to purchase goods for the  
spring trade.

George Banderoh of Oshkosh was  
in the city last evening, the guest  
of local lady friends.

Drs. H. B. Johnson of Beloit and  
W. H. Borden of Milton attended a  
meeting of pension board in this city  
today.

H. S. Gilkey, Victor P. Richardson  
and George D. Simpson went to Chi-  
cago yesterday on a business trip.

James Rowson, the senior member  
of the firm of James Rowson & Son,  
is here from Adel, Ia., to look after  
his city hall contract.

T. J. Anderson, formerly of this  
city, arrived here on Tuesday evening  
from Chicago in the interest of a pub-  
lishing house.

W. W. Winton, of Madison, district  
passenger agent of the St. Paul road,  
was in the city this morning on com-  
pany business.

H. L. Purdy of Chicago, traveling  
passenger agent for the Erie system  
was in the city today in the interests  
of his system.

James Gibson of Madison, district  
passenger agent of the Northwestern  
was in the city last evening and took  
in the Belle of New York, at the My-  
suit hotel.

J. F. Hutchinson, James A. Fathers  
and Charles W. Schwartz left on the  
morning train for Plattville where  
they will take part in the degree work  
of the Plattville lodge of Odd Fellows  
this evening.

George Key and son of Rockford,  
Ill., were in the city this morning  
looking over the local horse market.  
They left at 10:40 for Monroe and Al-  
bany to see if they could find any-  
thing in that neighborhood that would  
suit them.

Rebekah mask ball tomorrow even-  
ing. It will be the fun event of the  
season. Be on hand early.

## PLEA OF GUILTY MADE BY BROWN

### Judge Suspends Sentence For Six Months to Allow Him to Care for His Destitute Family.

The case of the Brittingham-Hixon  
Lumber company of Madison against  
T. O. Brown of Orfordville was called  
in the municipal court this morn-  
ing at 11 o'clock. The defendant was  
present in court and plead guilty to  
an information filed against him by  
District Attorney Jackson charging  
him with the embezzlement of \$300  
from the Lumber Company on April  
12, 1901.

Mr. Brown was represented in court  
by N. Larson of McFarland and E. H.  
Peterson of this city. Before pass-  
ing sentence on Brown Judge Fifield  
heard a plea of attorneys for  
the defense. They stated that Brown  
had turned over all his property to  
the lumber company and was without  
a cent. He had dependent upon him  
for support a wife and eight children,  
the youngest being four months old  
and the oldest thirteen years. They  
were in a destitute condition and  
would be in sore straits should Mr.  
Brown be sent to prison for his  
wrong doings. They therefore ask-  
ed that the judge be lenient with the  
prisoner.

District Attorney Jackson stated  
that the lumber company and he, him-  
self, were inclined to be lenient, not  
on account of Brown, but on account  
of his

## REPORT ACCEPTS NEWVILLE BRIDGE

Total Cost of Structure is \$10,601  
Which is Equally Divided Be-  
tween Town and County.

J. E. Gleason and Alex. White, the special bridge committee appointed by the county board to confer with the town supervisors of the town of Fulton, in regard to the bridge across Rock River, at Newville, have filed their report with county clerk, Starr. The report shows that the bridge structure costs \$10,490, and their is due M. E. Conway, for superintending the work \$111, making the total cost \$10,601, of which Rock County pays \$5,300 and the town of Fulton the balance.

The new structure is twenty feet shorter than the old one and several hundreds dollars were thus saved in the construction. The appearance had to be brightened somewhat on this account and cost \$200 extra, which is equally divided between the town and county. The committee is well pleased with the bridge and are satisfied it is the finest bridge in the county and will a long felt want at Newville.

**Idaho Beet Sugar Co.**  
F. Herbert Browning, John H. Garrett and Fred Krull of Lake Geneva were at the hotel Myers last evening and met a number of Janesville business men in the interests of the Idaho Beet Sugar Co. The representatives came here last night for the purpose of interesting Janesville business men in the scheme and to secure more funds to carry out their plans.

Their company property is located at Mountain Home, Idaho, where they own about 6,000 acres of land. It is located on the main line of the Union Pacific, about fifty-five miles from Boise City, Idaho. Mountain Home is a place of about 1,000 inhabitants and is a thrifty city.

No stock was subscribed for at the meeting last night but Mr. Browning will be in the city for several days to visit the business men.

**JAMES H. FARRELL, A PROMINENT CHICAGO MAN.**  
And the Oldest Member of the Illinois House of Representatives Makes a Recommendation.

James H. Farrell of Chicago, is one of the best known figures in the Democratic politics of that city. For years he has been a member of the Illinois House of Representatives, and has been a member continuously since 1887. His constituents have elected him eight times. He has been a leader in that body from the beginning of his career and is one of the best known figures in Illinois politics.

Capt. Farrell is 59 years of age and one of the best preserved men for his years in the Illinois Legislature, despite his arduous and constant duties in that body. Mr. Farrell is engaged in the real estate business in Chicago. Under date of March 14, 1901, he writes as follows:

Springfield, Ill.

**PEPSIN SYRUP CO.,**  
Manufacturers of Dr. Caldwell's Syrup Pepsin.  
GENTLEMEN: I have found after a thorough trial that your Syrup Pepsin is a most excellent and successful remedy for Dyspepsia, Bilectness and Sick Headache. It is most effective and pleasing in all cases of this nature, and it is with pleasure I recommend it to others.

Respectfully yours,  
JAMES H. FARRELL.

Dr. Caldwell's Syrup Pepsin and Herb Laxative Compound is guaranteed to cure all forms of stomach trouble—bilioesness, sick headache, indigestion and constipation. Not an irritant but a corrective. Druggists generally sell it. Ask yours, but if he hasn't it send for free sample and booklet. Pepsin Syrup Co., Mendocino, Ills.

**Cheap Homeseekers Excursions Via**

On the first and third Tuesdays of every month at one fare plus two dollars for the round trip, to points west, northwest, southwest, Iowa, Minnesota, North and South Dakota. Full particulars at passenger station.

**Bloodhounds Trailing Robbers.**

Carbondale, Ill., Feb. 13.—The Stonefort bank robbers, who secured \$10,000 Monday night or early Tuesday morning, are still at large. Bloodhounds trailed three suspects to an abandoned timber camp in a clump of woods four miles from Stonefort, but darkness coming on and the posse which followed the dogs being small, no attempt was made to capture them last night. Quite a number of the notes taken from the vault of the bank have been recovered, the robbers having thrown them away in their flight.

**Illinois Is Queen of the Navy.**

New York, Feb. 13.—The battleship Illinois, which yesterday dropped anchor off Tomp insville, after its final trial run from Newport News to New York, has proved herself the queen of the navy. In every test she has surpassed the Alabama, the Oregon and even her sister ship, the Kearsarge. The tests were rigorous and fully demonstrated, her officers say, her superiority over other vessels of her class which the country can boast.

**Boy Kills His Sister.**

Joliet, Ill., Feb. 13.—John Lums Vincent, the 11-year-old son of Mr. and Mrs. John Vincent of Lockport, accidentally shot and killed his sister, Anna Adeline, 9 years old, while playing with a revolver in the sitting room. She died almost instantly, shot through the heart. Stella, the baby which she held in her arms, fell to the floor. The bullet just grazed the little one's head just above the left ear. The baby is in no danger.

**Paterson Property Well Insured.**

New York, Feb. 13.—A preliminary meeting of insurance company representatives has been held to arrange settlements of the losses in the great Paterson fire. It is said the loss to the companies will aggregate \$1,000,000. The insurance men estimate the total loss to be about \$6,000,000 and the insurance a shade under 70 per cent of the total.

**Morton Gave His Daughter \$1,000,000.**

New York, Feb. 13.—Through a friendly suit brought to reform the

trust deeds, the marriage settlement made by former Governor Levi P. Morton upon his daughter Helen, who recently was married to Paul Louis Marie Archambault, Count de Talleyrand-Perigord, has been made public. The property is valued at \$1,000,000.

**Labor Riots in Spain.**

Madrid, Feb. 13.—There have been renewals of labor disturbances in several towns. At St. Sebastian crowds of people stoned the police and the latter charged several times. A score of persons were wounded. In Barcelona the strikers and workers have had several conflicts and a number of people were wounded.

**Daughter Testifies Against Her Father.**  
Mexico, Mo., Feb. 13.—There was a big surprise in the Alfred Buff murder trial here yesterday afternoon. The daughter, Miss Louisa Buff, arrived unexpectedly from Troy, Ill., and testified that her father deliberately killed her mother, shooting her through the head before the eyes of the witness.

**Invite Roosevelt to Tennessee.**

Knoxville, Tenn., Feb. 13.—President Roosevelt has been invited to visit Johnson City, Tenn., this spring to take part in the formal laying of the corner stone of the first building to be erected for the mountain branch national soldiers' home at that place.

**Seventy-Five Thousand Idle.**

Berlin, Feb. 13.—A census of the unemployed in Berlin taken Feb. 2 indicates that there are 75,000 persons totally without employment and about 11,000 partially unemployed.

The seven wonders of the United States are Niagara Falls, Caverns of Lundy, Garden of the Gods, Yosemite Valley, Natural Bridge, Big Trees of California and Dr. Crane's Quaker Tonic Tablets, the greatest kidney, liver and stomach cure. All drug stores. Fifty cents.

**Brigands Fight for Stone Ransom.**

Paris, Feb. 13.—Referring to a reported engagement between brigands for the possession of Miss Stone, the Constantinople correspondent of the Echo de Paris says: "The captors of Miss Stone and Mme. Tekla have been attacked by another band of brigands, seeking to secure the prisoner in order to get the ransom. Twenty men on both sides were killed during the fight, but the original captors of the missionary were victorious. Miss Stone was not hurt."

When you want a "physic" that is mild and gentle, easy to take and pleasant in effect use Chamberlain's Stomach and Liver Tablets. Price 25 cents. Samples free. Every box guaranteed. For sale by Peoples' Drug Store and Kings' Pharmacy.

**Communal Duties Dropped.**

Berlin, Feb. 13.—The tariff committee again overruled the government yesterday, and, in spite of the opposition of the ministerial members, the committee, adopted a radical motion abrogating all communal duties on cattle, meat, corn and other products, with the exception of brewing malt, from the April 1 following the date when the tariff law becomes effective.

**See to Meet American Competition.**

Vienna, Feb. 13.—The industrial council after a long debate yesterday resolved to postpone a decision on the reports of the various committees appointed by the minister of commerce to consider the best means of meeting American competition, until European commercial politics crystallize sufficiently to indicate the most effective method.

**Venezuelan Gunboat Sunk.**

Willemstad, Island of Curacao, Feb. 13.—A steamer which communicated with the Venezuelan revolutionary steamer Libertador yesterday confirms the report that the latter sunk the Venezuelan gunboat Gen. Crespo recently near Cumarebo. The captain and crew of the Crespo are prisoners on board the Libertador.

## THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak and deficient in vitality, and clings to the mother's arms with no desire to walk or play.

Mothers should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription by expectant mothers gives them health and strength to give their children. It nourishes the nerves, strengthens the body and gives great muscular strength and elasticity, so that the baby's advent is practically painless. "I have been using Dr. Pierce's Favorite Prescription, and can say it is just what you advertise it to be, and can cheerfully recommend it," writes Mrs. Victor J. Hadin, of Leonardsville, Riley Co., Kansas. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one he had seen (as I was sick only about three hours), and also that your 'Favorite Prescription' was the 'one patent medicine' which he did have faith in. We now have a darling baby boy, strong and healthy, who weighed nine pounds when born (July 25th). During this month he has gained three and one-half pounds."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps for expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

When asked what made her face so long  
"With fear in every feature,  
'Cause Calumet's so very strong"  
Replied the timid creature.

## RAILROADS ARE IN THE FIGHT

Effort to Prevent the Spread of Small-pox is Now Taken Up by Them.

Railroads are evidently agitated concerning the small-pox situation, and it is stated on good authority that all those entering in Chicago which include the Western lines running through here, will require vaccination among employees at once.

The first sign of a possible epidemic a few months ago was taken as a signal by railroads, and several required vaccination among the employees, among them being the Wisconsin Central, Milwaukee road and the Northwestern.

It is believed, although it cannot be confirmed, that the effort in Chicago by health officials to ward off the disease which is prevalent in the Northwest has been extended to the railroad companies so that the vaccination will be general, although excluding any lines which have held their "bees."

The Milwaukee road has issued orders on several divisions, asking that all employees submit to vaccination at once, both those on the rolling stock as well as those employed in the offices. With it is a request to agents asking for particulars concerning the condition of the town or city as regards the disease.

The fact that the companies desire complete records to this effect is said to be the result of the impression made at Chicago by health officials on the railroads. All such orders issued emanate from the Windy city, where the headquarters are located.

## SMALL POX FOUND IN CHICAGO JAIL

Four Cases Break Out Among 1,300 Inmates of the Bridewell—None Vaccinated.

Chicago, Ill., Feb. 13.—Small-pox has broken out in the bridewell. Exposure to contagion carried by William Hefford into the institution Jan. 27 was the cause of the outbreak, and four patients were taken to the isolation hospital this morning. There are 300 prisoners in the bridewell and 40 in the John Worthly school. Supt. Sloan at once isolated the patients and summoned officials from the health department. None of the victims has ever been vaccinated.

## HOTEL ARRIVALS

Wisconsin people registered at the local hotels today:

**Myers**  
M. G. Rankin, Milwaukee; D. H. Higgins, E. D. Higgins, Neillville; G. Myer, Milwaukee; J. Gibson, Madison; W. Beckman; O. L. Lesser, B. H. Mehling, Milwaukee.

**A Little Previous.**  
In Germany a "man" in order to marry must be at least 18 years of age. In Portugal a boy of 14 is considered marriageable, and a "woman" of 12. In Greece the "man" must have seen at least 14 summers and the "woman" 16. In Belgium the same ages. In Spain the intended husband must have passed his 14th year and the "woman" her 12th. In Austria a "man" and a "woman" are supposed to be capable of conducting a home of their own at the age of 14. In Turkey any youth and maiden who can walk properly and can understand the necessary religious service are allowed to be united for life.—Chicago Journal.

The Chicago Man—Well, what did you think of New York?  
The Colorado Man—Thought it was a mining town when I first struck it. Somebody was digging in nearly every street.—Yonkers Statesman.

**T. P. BURNS**  
DRY GOODS & CARPETS

## More... Extensive... Improvements...

Than we at first figured on will necessitate a delay in the opening of our merchant tailoring establishment which was to have taken place on Feb. 15th. The latter part of the month will find our new department ready for inspection. A stock most complete and a cutter whose work is unquestioned are two points that are strong in our favor.
